WORK EXPERIENCE

Web Developer Intern

Cloud Quest | Remote
Nov 2024 – Jan 2025

- Developed a full-featured Job Portal using the MERN stack with user authentication, job listings, and role-based access.
- Built responsive UIs with Tailwind CSS and React, ensuring seamless user experience across devices.
- Integrated RESTful APIs and managed backend operations with Node.js, Express, and MongoDB.
- Participated in code reviews, debugging, and GitHub-based collaboration workflows.
- Delivered multiple project modules aligned with business objectives and user requirements.

PROJECTS

Gym Website with Live Razorpay: LINK
Tech Stack: React, Node.js, Express.js, MongoDB,
Razorpay **Duration:** 2025

- Created a dynamic gym website with membership plan management and live payment integration via Razorpay.
- Integrated role-based access control for users and admins with a centralized dashboard for analytics and user insights.
- Ensured secure, end-to-end payment flow and optimized the site for performance and responsiveness.

Movie Recommendation & Streaming Website: LINK
Tech Stack: React, Node.js, Express.js, MongoDB
Duration: 2024

- Developed a personalized movie streaming platform with smart recommendations based on user preferences and watch history.
- Implemented secure authentication, protected routes, and a clean user interface for seamless movie exploration and viewing.
- Enabled genre- and language-based filtering to enhance content discovery.

PGify – PG Booking Website: LINK
Tech Stack: React, Node.js, Express.js, MongoDB
Duration: 2025

- Built a full-stack PG accommodation platform with real-time booking, secure authentication, and admin management dashboard.
- Users can search, filter, and book PGs, while property owners manage listings and availability.
- Designed a responsive, user-friendly interface optimized for mobile and desktop usage.

CERTIFICATES

Digital Marketing Certification — *March 25, 2025*

AI-ML Certification — *January 10, 2025*

Cloud Quest Internship Certificate — *January 5, 2025*

Java Iterators Coding Certificate — *September 11, 2024*
